

UTILITY PROVIDERS

Sellers: To help ease the transition for the future buyer of your home, please list the companies you use for the following utilities. Please call at least a week in advance of the closing to schedule utilities to be taken out of your name as of the day of closing, or the last day that you will occupy the property, whichever is later. Since many water departments now require a settlement statement to start the new account, kindly leave the water on for 5 business days beyond closing to allow the buyer time to set up their new account.
